

# **Audio Verification**

## **Intruder Alarm Central Monitoring**

**Verified Burglary : Police Response**

**Verified Fire : Fire Brigade Response**

**Verified Medical : Ambulance Response**

**Never Lose  
Police  
Response**

Audio Verification Central Monitoring is designed to ensure that the Police are only ever called in the event of a Verified Burglary in Progress, ensuring that your Alarm Monitoring always receives a Priority Response.

# Audio Verification

## Intruder Alarm Central Monitoring

- **Audio Verification** Is the latest Technology being used in the fight against Burglary and Theft, and has been designed in such a way as comply with the rigorous codes set out by ACPO (The Association of Chief Police Officers) in regards to Alarm Monitoring and Police Response.
- **The Loss of Police Response after 3 false alarms in any 12 month period.**
  - With AV Central Monitoring this will never happen as an Operator will listen in to your premises with the use of a Microphone/Speaker, and Verify either a Burglary in progress or False Alarm and contact the Police or a Key Holder as is required.
  - Last year over a quarter of a million homes and businesses lost Police Response due to False Alarms.

## Audio Verification in Action

### Burglary

Once the activation has been received, the ARC (Alarm Receiving Centre) capture the telephone call, and using an Audio Verification unit from 21st Century, can listen in to the property to confirm an intruder.

The ARC will challenge the intruder for a Pass Word, if the correct password is given the activation will be cancelled, after all it might have been a false alarm.

If however the correct password is not given or the ARC suspects foul play the appropriate authorities will be contacted as well as an authorized key holder.

### Fire Alarm

The ARC can also Monitor Smoke and Heat Rise Detectors, from Intruder Alarm Systems with this Function i.e: the Visonic **PowerMax** Complete, **PowerMaster** and **Infinite Prime** Alarm Systems.

### Medical Emergency

The ARC can also Monitor Medical Pendants and Wrist Bracelets, from Intruder Alarm Systems with this Function i.e: The Visonic **PowerMax** Complete, **PowerMaster** and **Infinite Prime** Alarm Systems.

### Cost

For Audio Verification Compatible Alarm Systems **£225** per year (12 mth Subscription) i.e: The Visonic **PowerMax** Complete, **PowerMaster** and **Infinite Prime** Alarm Systems.

For Older and None Compatible Alarm Systems a Digital Communicator and Speaker/Mic unit will be required, **£150** installed
